

InstyMeds®

We Make Patients Better, Quicker!

ELIMINATE STARTER PACKS

According to the American Journal of Health System Pharmacists, starter packs cost hospitals \$3000 - \$10,000 a month for the drug cost itself as well as the additional staff time required. **Replacing starter packs with InstyMeds results in savings of up to \$120,000 a year.**

The cost of doing nothing

A reported 30% of prescriptions are never filled, which can result in poor recovery and possible hospitalization for the patient.

With the average hospitalization costing \$10,000 and the poor reimbursement rates for the uninsured and underinsured patients, reducing the number of hospitalizations is crucial to the hospital's bottom line.

Providing prescription medications at the point of care looks out for the patient's best interest and increases the likelihood the treatment plan will be followed and result in positive health outcomes.

A safe and cost effective solution

InstyMeds takes the place of starter packs in the ED to provide onsite medications to better patient health outcomes and eliminate a major hospital expense.

-  **DECREASE HOSPITAL EXPENSES**
Recover the costs of the medications dispensed
Reduce staff involvement needed with starter packs
-  **IMPROVE PATIENT HEALTH OUTCOMES**
Full course of medication provided onsite
Medication compliance increased
-  **REAFFIRMS COMMITMENT TO QUALITY**
Provides medication access conveniently and affordably
Ensures medication safety and accuracy with InstyMeds triple barcode check system

A complete pharmacy logistics system

The InstyMeds system includes all the pieces to facilitate safe and secure delivery of prescription medications directly to patients.

-  **LABELS** medication - lists InstyMeds' 24-hour call center with pharmacist availability
-  **PROVIDES** patient drug education information – available in English or Spanish
-  **TRACKS** medication inventory – includes expiration dates and recall monitoring
-  **PROCESSES** insurance and collects any medication costs or co-pays on your behalf
-  **COMPLETES** federal and state mandated medication reporting
